Group No	G25		
Project Title	UCSC Virtual career fair management system		
Supervisor's Name	Dr (ms) L.N.C. de Silva		
Co-Supervisor's Name	Mr. Roshan Abeyweera		
Group Meeting Number	8	Date	21/06/2021

Summary of work carried out during last two weeks

1. Had a special meeting with the Supervisor to plan our next step. (Listed under meeting outcomes section).
2. We studied current system in PDC to further analyze the functionalities which are important to our project scope.
3. We started drawing Use Case based on the modules we identified from the meeting. And also started drawing Activity diagrams.
4. We researched about technologies to get more familiar with using them in our project.

Individual Contribution for last two weeks

[1]. P. H. Mallikarachchi	• Studied more about backend technologies. Mostly about Express and Node. • Started to draw the Use case diagram for system. • Started to design UI designs on Figma.
[2]. W.G.S.L.Bandara	• Completed the UI design for login of the system • Studied about technologies and frameworks that are to be used in the system like react js, material UI. • Worked with designing process of the landing page of the web based system
[3]. R. L. Udayanga	• Studied about technologies and frameworks that are to be used in the system such as react js, material UI. • Contributed in designing systems and wireframes for the dashboard and finalized the main dashboard UI design. • Worked with the designing process of the landing page of the web based system.
[4]. H.T.P.C. Sooriyabandara	• Studied about current PDC systems. • Studied about proposed technologies and frameworks (Redux, martial UI) • Contributed in making technology report.
[5]. H. P. N. Aravinda	• Create design systems and wireframes for the dashboard and finalize the main dashboard UI design. • started the Activity diagrams for system. • Studied about technologies and frameworks that are to be used in the system frontend such as react js, material UI. • Design the company web page and started developing web page using frontend technologies.

Meeting outcomes

- Gave feedback about the Project proposal results and showed us how to overcome those mistakes which were mentioned in the proposal feedback.
- Gave instructions on how to separate the modules in our application and how to organize different function and their dependencies as per each module.
- Gave instructions on how to prepare the diagrams for our application.

Responsibilities Accepted by group members for the next two weeks

[1]. P. H. Mallikarachchi	- Complete design User interfaces. - Create the database schema for our application. - Finalize the User Authentication module. - Starting to create UIs
[2]. W.G.S.L.Bandara	- Design the component diagram. - Complete activity diagrams - Starting to create UIs
[3]. R. L. Udayanga	- Complete activity diagrams - Further study on proposed technologies. - Fix bugs in the Use Case diagram and finalize it. - Starting to create UIs
[4]. H.T.P.C. Sooriyabandara	- Further study on proposed technologies (Fastify, prisma) - Starting to create UIs - Complete use case diagram.
[5]. H. P. N. Aravinda	- Complete use case diagram. - Further study on proposed backend technologies such as Node JS, material UI, Redux - Fix bugs in the Use Case diagram and finalize it. - Starting to create UIs

Supervisor's/ Co-Supervisor's Remark (Through online Google form. Not need in this form)

Supervisor's or Mentor's remarks regarding the meeting outcome, progress made, work distribution, individual contribution and any other important aspects.

Current progress is satisfactory.

Students should spend more time on the project and regular meetings should be organized to discuss on the progress.

| **Supervisor's and Co- Supervisor's opinion about the group progress (Through online Google form. Not need in this form)**	Satisfactory ☑	Unsatisfactory ☐
